

Azim Raza

B Tech. (CSE), Dr. APJ Abdul Kalam Technical University, Lucknow

Email : azimraza4213@gmail.com | Mob : +91 63063 87686 | [linkedin.com/AzimRaza](https://www.linkedin.com/AzimRaza) | github.com/AzimRaza

Career Summary

- Aspiring Data Scientist with a strong foundation in Python, SQL, Advanced Excel, Machine Learning, and Data Analytics.
- Experienced in data preprocessing, EDA, predictive modeling, and visualization using Pandas, NumPy, Matplotlib, and Scikit-learn.
- Experienced in developing and deploying machine learning applications using Django and Streamlit.

Education

Course	University/Board	Year	Grade
Bachelor of Technology (Computer Science & Engineering)	Dr. APJ Abdul Kalam Technical University, Lucknow	2022 – 26	7.9 CGPA
12 th	CBSE	2022	91.6%
10 th	CBSE	2020	94.5%

Internship Experience

04 Months

Softpro India Computer Technologies Pvt. Ltd. — Intern (Python with Data Science)

Jul 2025 – Aug 2025

- Performed data preprocessing, cleaning, and exploratory data analysis (EDA) on structured datasets using Python, Pandas, and NumPy.
- Applied feature engineering and data transformation techniques to prepare datasets for model training and improve prediction accuracy.

Internship Fusion - Web Developer Intern

Sep 2024 - Oct 2024

- Designed and developed responsive web pages using HTML, CSS, and JavaScript to enhance user experience.
- Implemented interactive features and optimized website performance through debugging and code improvements.

Projects

Analytics Hub | Python, Streamlit, Scikit-learn, Pandas, Matplotlib

GitHub: <https://github.com/AzimRaza/Analytics-Hub>

- Developed an AI-powered analytics platform integrating **machine learning models** for business forecasting, course recommendation, student performance prediction, and placement analysis.
- Implemented complete data science workflows including **data preprocessing, exploratory data analysis (EDA), feature engineering, model training, and evaluation**.
- Applied **regression and classification algorithms** using Scikit-learn to generate predictive insights from real-world datasets.

Disease Predictor | Python, Django, Scikit-learn, Pandas, SQLite

GitHub: <https://github.com/AzimRaza/Disease-Predictor>

- Developed an end-to-end machine learning application for prediction using **data preprocessing, feature engineering, model training, and inference**.
- Implemented CSV-based batch prediction and deployed the trained model using **Django and SQLite**.

Certifications

- HackerRank - SQL (Intermediate)
- HackerRank – Python (Basic)

Skills

- Programming:** Python, SQL
- Data Science:** Data Cleaning, Data Preprocessing, Exploratory Data Analysis (EDA), Feature Engineering, Predictive Analytics
- Data Analysis & Visualization:** Advanced Excel, NumPy, Pandas, Matplotlib, Seaborn
- AI/ML:** Machine Learning, Scikit-learn, AI fundamentals
- Framework :** Streamlit, Django
- Databases:** MySQL, SQLite
